## EXPERIENCE

I am a systems engineer with more than 15 years of experience, as a FrontEnd Developer I have more than 5 years as a full Stack I have 2 years

## MAIN PROJECTS

<a href="#">Chillimn Time</a>		Jun 2023 – Jul 2023
<i>"Chilling Time" is designed to provide a first-class experience for modern travelers, who will be able to enjoy an exclusive and relaxing environment in the VIP lounges while waiting for their flights. The booking process is agile and simple, allowing users to plan their time in advance and make the most of every moment of their trip.</i>		
<ul style="list-style-type: none"><li>▪ NextJs 13, Tailwind, PrismaDB</li><li>▪ In this app use the react Hooks such as useState, useEffect,</li></ul>		

<a href="#">eCommerce App</a>		May 2022
<i>The virtual store or online store (also called ecommerce), is a web page developed and designed specifically to sell or offer products or services. This work is also known as electronic commerce</i>		
<ul style="list-style-type: none"><li>▪ In this app use the react Hooks such as useState, useEffect, useDispatch</li><li>▪ Redux was used</li><li>▪ React-form was used</li></ul>		

### [Movie App](#)

May 2022

*Movie Grade is an application that recommends movies to users based on their personal choice. Unlike traditional review-based review apps, Movie Grade keeps the user engaged*

- In this app use the react Hooks such as useState, useEffect, useDispatch
- Redux was used
